

Forms

Do you need to collect information from your community in a structured way?

Tiki has the tools for you!

1. [trackers](#) - a full on "database within your database" that you can configure without being a programmer.
2. [surveys](#) - design a questionnaire and view the feedback.
3. [polls](#) - want to do a quick straw poll on an issue?
4. [quizzes](#) - for educators, Tiki has very advanced learning and teaching tools.

Check out these pages for more information.
